

SERVICE BULLETIN

SUBJECT: MP-3000 / MPC2000ID Test Kit

BULLETIN NO: C 055

DATE: October 8, 2002

The following information relates to the release of the MP-3000 / MPC2000ID Test kit. The test kit has the ability to test the following components:

- MP-3000 / MPC2000ID Controller
- Main Relay Board (MRB)
- Interconnect Cables
- Keypad
- Displays

As of January 1, 2003, no failed Controllers or Main Relay Boards (MRB) will be accepted under Warranty return without a 'Failed Component' report accompanying the part. The tester program generates this report. If no report is included, the part will be returned (at the sending location cost) and the Warranty Claim will be denied.

Test Kit

Kit comes with all necessary software and test plugs required to perform all tests noted above.

The kit is sold through York Controls.
